

Project info sheet

Compliance check permit existing power plant Contour Global

Bonaire, 2015

Client info:

CONTOURGLOBAL

Name: Contour Global Sector: Power/Utility

Location: Bonaire

Contour Global is a developer, operator and owner of electric power businesses. The company manages, owns and operates 61 power plants, utilizing a wide range of fuel types, technology and equipment.

Rationale: Contour Global has acquired the 24 MW integrated wind and diesel power plant at Bonaire in 2013. The company received a nuisance permit in January 2014.

Approach: We executed air sampling and air quality modelling, noise measurements and noise modelling to verify compliance to the permit. We also did an audit to verify compliance to each requirement in the permit and made recommendations to improve and to be sure to comply to the permit.

Outcome: All recommendations have been implemented and operation is in compliance with the permit.
