

Support implementation of environmental management system according to ISO 14001

Curaçao, 2014 – 2015, revision 2018

Client info:

Name: Curaçao Ports Authority (CPA)

Sector: Transportation

Location: Curaçao

CPA is a government owned company responsible for the operation of all harbours. CPA has two subsidiaries: KTK Tugs and Curaçao Pilots Organization (CPO).

Rationale: CPA decided to introduce an environmental management system according to ISO 14001 for all their locations and operations including their subsidiaries KTK and CPO in 2014.

Approach: EcoVision organised workshops for the entire CPA, KTK and CPO staff to introduce the system and to define environmental aspects in 2014. An environmental aspect register was set up including defining measures and methods to manage the aspects.

This register was revised in 2018 due to new financial and human resource investments. Furthermore, there were new legal requirements.

Outcome: CPA received their ISO 14001 certificate in 2015.
CPA successfully passed the audit for ISO 14001 in November 2018.
