

Memo permit applications Aqualectra N.V.

Curaçao, 2023

Client info:

Name: Aqualectra
Sector: Power and utility
Location: Curaçao

Aqualectra is Curaçao's utility company responsible for the production and distribution of power and water as well as the delivery of accompanying services.

Rationale: Aqualectra has previously submitted various permit applications to the government for all the production units. Aqualectra requested EcoVision to prepare a memo that explains the requirements for submitting a new permissible permit application for their facilities.

Approach: An overview has been made of all legislative documents related to a nuisance permit application. Based on the documents an overview has been made of all requirements for applying for a Nuisance Permit. Furthermore, a gap analysis has been carried out.

Outcome: Recommendations were made based on the requirements for the nuisance license application and the gap analysis done.
